Table of Contents

Introduction	1
Chapter 1 - Issues and Opportunities	4
Section 1.1 - Description of Planning Area	4
Section 1.2 - Past Planning in Stockton	6
Section 1.3 - The Initial Comprehensive Plan and Current Update Process.....	6
Section 1.4 - Town of Stockton Vision.....	7
Section 1.5 - Demographic Trends.....	8
Section 1.6 - Forecasts	15
Section 1.7 - Conclusions.....	16
Section 1.8 - Community Goals, Objectives, and Policies	17
Chapter 2 - Housing Element.....	18
Section 2.1 - Inventory and Analysis	18
Section 2.2 - Housing Demand	24
Section 2.3 - Housing Issues/Conclusions	25
Section 2.4 - Housing Goals, Objectives, and Policies	29
Chapter 3 - Transportation Element.....	30
Section 3.1 - Introduction.....	30
Section 3.2 - Transportation Facility Inventory	30
Section 3.3 - Inventory and Analysis of Transportation Plans / Programs	36
Section 3.4 - Transportation Issues/Conclusions	40
Section 3.5 - Transportation Goals, Objectives, and Policies	41
Chapter 4 - Utilities and Community Facilities Element	42
Section 4.1 - Introduction.....	42
Section 4.2 - Public Utilities Inventory.....	42
Section 4.3 - Community Facilities Inventory	45
Section 4.4 - Utilities and Community Facilities Issues and Concerns	54
Section 4.5 - Utilities / Community Facilities Goals, Objectives and Policies.....	55
Chapter 5 - Agricultural, Natural and Cultural Element	56
Section 5.1 - Introduction.....	56
Section 5.2 - Agriculture at a Glance	56
Section 5.3 - Diversity in Agriculture	56
Section 5.4 - Agricultural Inventory	57
Section 5.5 - Town of Stockton Agricultural Discussion	61
Section 5.6 - Agricultural Issues, Challenges and Conclusions.....	62
Section 5.7 - Agricultural Goals, Objectives, and Policies	63
Section 5.8 - Natural Resources Inventory	64
Section 5.9 - Natural Resources Issues	82
Section 5.10 - Natural Resources Goals, Objectives, and Policies	83
Section 5.11 - Cultural Resources	84
Section 5.12 - Cultural Resource Issues.....	85
Section 5.13 - Cultural Resource Goals, Objectives, and Policies.....	85

Chapter 6 - Economic Development Element.....	86
Section 6.1 - Introduction.....	86
Section 6.2 - Labor Force and Economic Base	86
Section 6.3 - Strengths and Weakness for Attracting/Retaining Businesses	90
Section 6.4 - Desired Businesses	90
Section 6.5 - Environmentally Contaminated Sites	90
Section 6.6 - Economic Development Resources	90
Section 6.7 - Economic Development Issues and Conclusions	93
Section 6.8 - Economic Development Goals, Objectives, and Policies.....	94
Chapter 7 - Intergovernmental Cooperation Element	95
Section 7.1 - Analysis and Inventory of Intergovernmental Agreements.....	95
Section 7.2 - Analysis of Intergovernmental Agreements	97
Section 7.3 - Identification of Existing/Potential Conflicts with Other Governmental Units	98
Section 7.4 - Intergovernmental Cooperation Goals, Objectives, and Policies	98
Chapter 8 - Land Use Element.....	100
Section 8.1 - Existing Land Use.....	100
Section 8.2 - Land Use Trend Analysis and Projected Land Use	103
Section 8.3 - Land Use Conflicts	105
Section 8.4 - Land Use Issues, Concerns and Conclusions.....	105
Section 8.5 - Land Use Goals, Objectives, and Policies	105
Section 8.6 - Future Land Use Recommendations.....	107
Section 8.7 - Future Land Use Categories/Mapping Criteria	112
Section 8.8 - Open Space and Rural Landscape Preservation	114
Section 8.9 - Use of “Planned Development” within the Town of Stockton	117
Chapter 9 - Implementation Element.....	119
Section 9.1 - Comprehensive Plan Adoption Procedures	119
Section 9.2 - Comprehensive Plan Implementation	121
Section 9.3 - Relationship to Zoning	122
Section 9.4 - Integration, Amendment, and Update of Comprehensive Plan Elements	123
Section 9.5 - Monitoring/Formal Review of the Plan	125

Appendix F - Boundary Map for the Primary Open Space Areas	F-1
Appendix G - Plan Commission Resolution adopting Comprehensive Plan.....	G-1
Appendix H - Town Board Ordinance adopting the Comprehensive Plan.....	H-1

INTRODUCTION

Welcome to the Town of Stockton Comprehensive Plan. This Comprehensive Plan is the centerpiece of the community planning process, stating our community's development goals and outlining public policies for guiding future growth. It establishes an identifiable destination that allows both the governing body and private interests to plan and budget with an idea as to the direction the Town may move in the future, and helps to ensure that future growth is not only anticipated, but planned for. The Plan functions as a practical guide to coordinate day-to-day decisions so they make sense in the future.

The Portage County Comprehensive Planning Process and the Town of Stockton

The first Town of Stockton Comprehensive Plan was completed in 2006 as a part of a larger, county-wide planning project. In November of 2000, the Portage County Planning and Zoning Department submitted an application for a State of Wisconsin planning grant to help fund the creation of County-wide comprehensive plans that would meet the newly enacted State Statute requirements for long range planning (see SS 66.1001). The Statute stipulates that by January 1, 2010, all towns, villages, cities, and counties that make decisions regulating land use will need to base those decisions on an adopted comprehensive plan. In January of 2001, grant funds totaling \$504,000 were awarded to Portage County to assist with the County-wide project. Two separate "large area" plan documents were developed: an Urban Area plan which encompasses the City of Stevens Point, Villages of Park Ridge, Whiting and Plover, and a portion of the unincorporated Towns of Hull, Stockton, Plover, Linwood and Carson; and the Portage County Comprehensive Plan, which includes each of the seventeen unincorporated Towns (Alban, Almond, Amherst, Belmont, Buena Vista, Carson, Dewey, Eau Pleine, Grant, Hull, Lanark, Linwood, New Hope, Pine Grove, Plover, Sharon, Stockton) and six incorporated rural Villages (Almond, Amherst, Amherst Junction, Junction City, Nelsonville, Rosholt) that make up the rest of the County. In addition to the large area plans, the project included the adoption of a Comprehensive Plan for each of the County's 27 individual units of government.

In June of 2001, a committee made up of representatives from each unit of government within Portage County was appointed to draft these plan documents. The *Portage County Comprehensive Planning Joint Steering Committee* adopted a "Public Participation Plan" on July 25, 2001. The Participation Plan detailed the different ways that residents of the County would be invited and encouraged to participate in the formulation of the Comprehensive Plans. The Town of Stockton also adopted the Public Participation Plan on February 6, 2002 (Appendix A).

The first step in soliciting public involvement was a County-wide opinion survey, which was conducted in the second half of September 2001. Over 30,000 surveys were mailed, with an intended target of one for every household within the County. Over 6,600 of the households responded, a return rate of approximately 22%. The survey responses provided information on resident's feelings in the areas of: County trends and land use; housing; utilities and community facilities; agricultural, natural and cultural resources; commerce and employment; transportation; and quality of life within the County. The Town of Stockton was well represented in the survey results (see Appendix B). In order to follow up and build on the information gathered in the survey, a series of Hopes and Concerns Workshops were held in various locations around Portage County. A wide variety of County residents participated in the Workshops. To include as many groups as possible, Workshops were scheduled in towns and villages across the County, as well as junior high and high schools, UW-Stevens Point (with both faculty and students), and the Lincoln Center.

After completion of the Hopes & Concerns Workshops all of the response information was forwarded to the Portage County Comprehensive Planning Joint Steering Committee, who used a series of meetings to boil the information down to 44 summarizing “issue statements”. This list then became the basis for a series of six visioning sessions held across Portage County during the spring of 2002. Again, all of the public input was returned to the Joint Steering Committee for review and discussion. An Urban Area Vision Statement and a Rural Area Vision Statement were approved in the fall of 2002. These Vision Statements were used as a foundation for the Urban Area and Rural Area Comprehensive Plans, respectively, and their ideas resonate throughout the individual local unit plans.

State Statute 66.1001 defines minimum requirements for what content should be included within a comprehensive plan. These requirements include nine “elements”, or chapters, describing: *issues and opportunities; housing; transportation; utilities and community facilities; agricultural, natural and cultural resources; economic development; intergovernmental cooperation, land use; and implementation.* The Town of Stockton has used the required elements as an outline for its plan document.

As previously stated, the Town of Stockton plan was completed as part of a larger grant project. When Portage County, representing its twenty-seven constituent municipalities, made application to the State of Wisconsin for grant funding to offset costs of the project, it was required to include in its plan development process the methods that would be utilized to address a number of planning concepts detailed in the State Statutes. Section 16.965(4) of the State Statutes describes these concepts (see attached Appendix C for the complete text of this section). Listed below is the primary intent of the section:

- 4) *In determining whether to approve a proposed grant, preference shall be accorded to applications of local governmental units that contain all of the following elements:*
 - (b) *Planning efforts that contain a specific description of the means by which all of the following local, comprehensive planning goals will be achieved:*
 1. *Promotion of the redevelopment of lands with existing infrastructure and public services, and the maintenance and rehabilitation of existing residential, commercial, and industrial structures.*
 2. *Encouragement of neighborhood designs that support a range of transportation choices.*
 3. *Protection of natural areas, including wetlands, wildlife habitats, lakes, woodlands, open spaces, and groundwater resources.*
 4. *Protection of economically productive areas, including farmland and forests.*
 5. *Encouragement of land uses, densities, and regulations that promote efficient development patterns and relatively low municipal, state governmental and utility costs.*
 6. *Preservation of cultural, historic, and archaeological sites.*
 7. *Encouragement of coordination and cooperation among nearby units of government.*
 8. *Building of community identity by revitalizing main streets and enforcing design standards.*
 9. *Providing an adequate supply of affordable housing for individuals of all income levels throughout each community.*

10. *Providing adequate infrastructure and public services, and an adequate supply of developable land to meet existing and future market demand for residential, commercial, and industrial uses.*
11. *Promoting the expansion or stabilization of the current economic base, and the creation of a range of employment opportunities at the state, regional, and local levels.*
12. *Balancing individual property rights with community interests and goals.*
13. *Planning and development of land uses that create or preserve varied and unique urban and rural communities.*
14. *Providing an integrated, efficient, and economical transportation system that affords mobility, convenience and safety, which meets the needs of all citizens, including transit-dependent and disabled citizens.*

These 14 planning concepts were not required “elements” (chapters) of the plan, but rather ideas or themes that needed to be referenced or addressed within the text of the planning grant application and subsequent planning documents. They have been addressed within the Town of Stockton and other individual comprehensive plans within the Portage County planning project.

The Stockton Town Board and Plan Commission have found the 2006 Comprehensive Plan to be an effective and flexible document. However, State Statute 66.1001(2)(i) requires that a Comprehensive Plan be updated no less than once every 10 years. And so a full-scale review of the plan began in August 2011. The Stockton Plan Commission proceeded Chapter by Chapter to verify and update existing background information, re-evaluate the issues identified in each of the required Chapters, and review, validate, and revise the Goals, Objectives, and Policies accordingly.
