What NOT to Bring to Camp

If found, these items will be confiscated until Friday. We want campers to interact and develop real social skills without technological assistance, and don't want cell phones, internet, gaming systems, music, texting, etc. to be a distraction from other campers, activities, or programs. Also some of these items are expensive to replace in case of loss or breakage, or can cause harm if misused.

- MP3 players, iPods, iPads, iPhones, Blackberry, radios, CD/DVD or other music/internet devices
- Cell/smart/I-phones and/or instant messaging devices, laptops, tablets, kindles, e-readers, etc.
- Electronic games (PSP, Nintendo DS, tablets, etc.)
- Aerosol or pump sprays (deodorant, body sprays, hairspray, etc.), styling mousse foam & gels
- Curling irons, crimpers, electric curler sets, etc. (for safety & energy conservation reasons; anyway ladies, you are 'roughing it' and at camp – we'll all go for the 'outdoorsy look').
- Inappropriate clothing (adult-themed or violent tee-shirts, string bikinis, skimpy clothing, miniskirts, etc.)
- Fireworks or firecrackers; silly string
- Knives (including pocketknives) and firearms

Do not bring food or snacks to keep in your cabin. Food in cabins attracts unwanted wildlife like ants, mice and bears. Adequate meals will be served and snacks provided.
