Notices

WEDSS and Courtesy Notification: As cases increase, this is a friendly reminder to call or email a jurisdiction if you are referring a case to them in WEDSS. A message with the case # should suffice to ensure the receiving health department is able to promptly respond without it getting buried under other incoming results. (Next week, the open forum will include a poll about creating a document with health department contact and preference information for notification of case referrals in WEDSS.)

Media Briefings: At this time, there are no media briefings planned for this week.
