New Portage County COVID-19 Data Dashboard

Since March, Portage County Health and Human Services-Division of Public Health has been working hard to ensure our County remains current on the latest information surrounding the COVID-19 pandemic. Starting today, Portage County has launched a new dashboard that has detailed information and statistics about COVID-19 in Portage County. This dashboard will be updated weekly with new data and other information that is necessary to share as our response to the COVID-19 pandemic continues.

The dashboard includes local COVID-19 data, safety guidance, resources, information on symptoms, what one can do to prevent illness, what to do if you're sick, and FAQ's. The County feels this dashboard will be a better way to provide community members with updates, statistics, and information. The dashboard is best viewed on a laptop or desktop computer, however, is mobile-friendly.

To view the new data dashboard, follow this link: <https://coronavirus-response-portage-county-portagecowi.hub.arcgis.com/>

If you have questions, please email our department at PCPublicHealth@co.portage.wi.us.

If you have general COVID-19 questions call 2-1-1 or text your zip code to 898211 Monday-Friday from 8 a.m.-4 p.m.
