
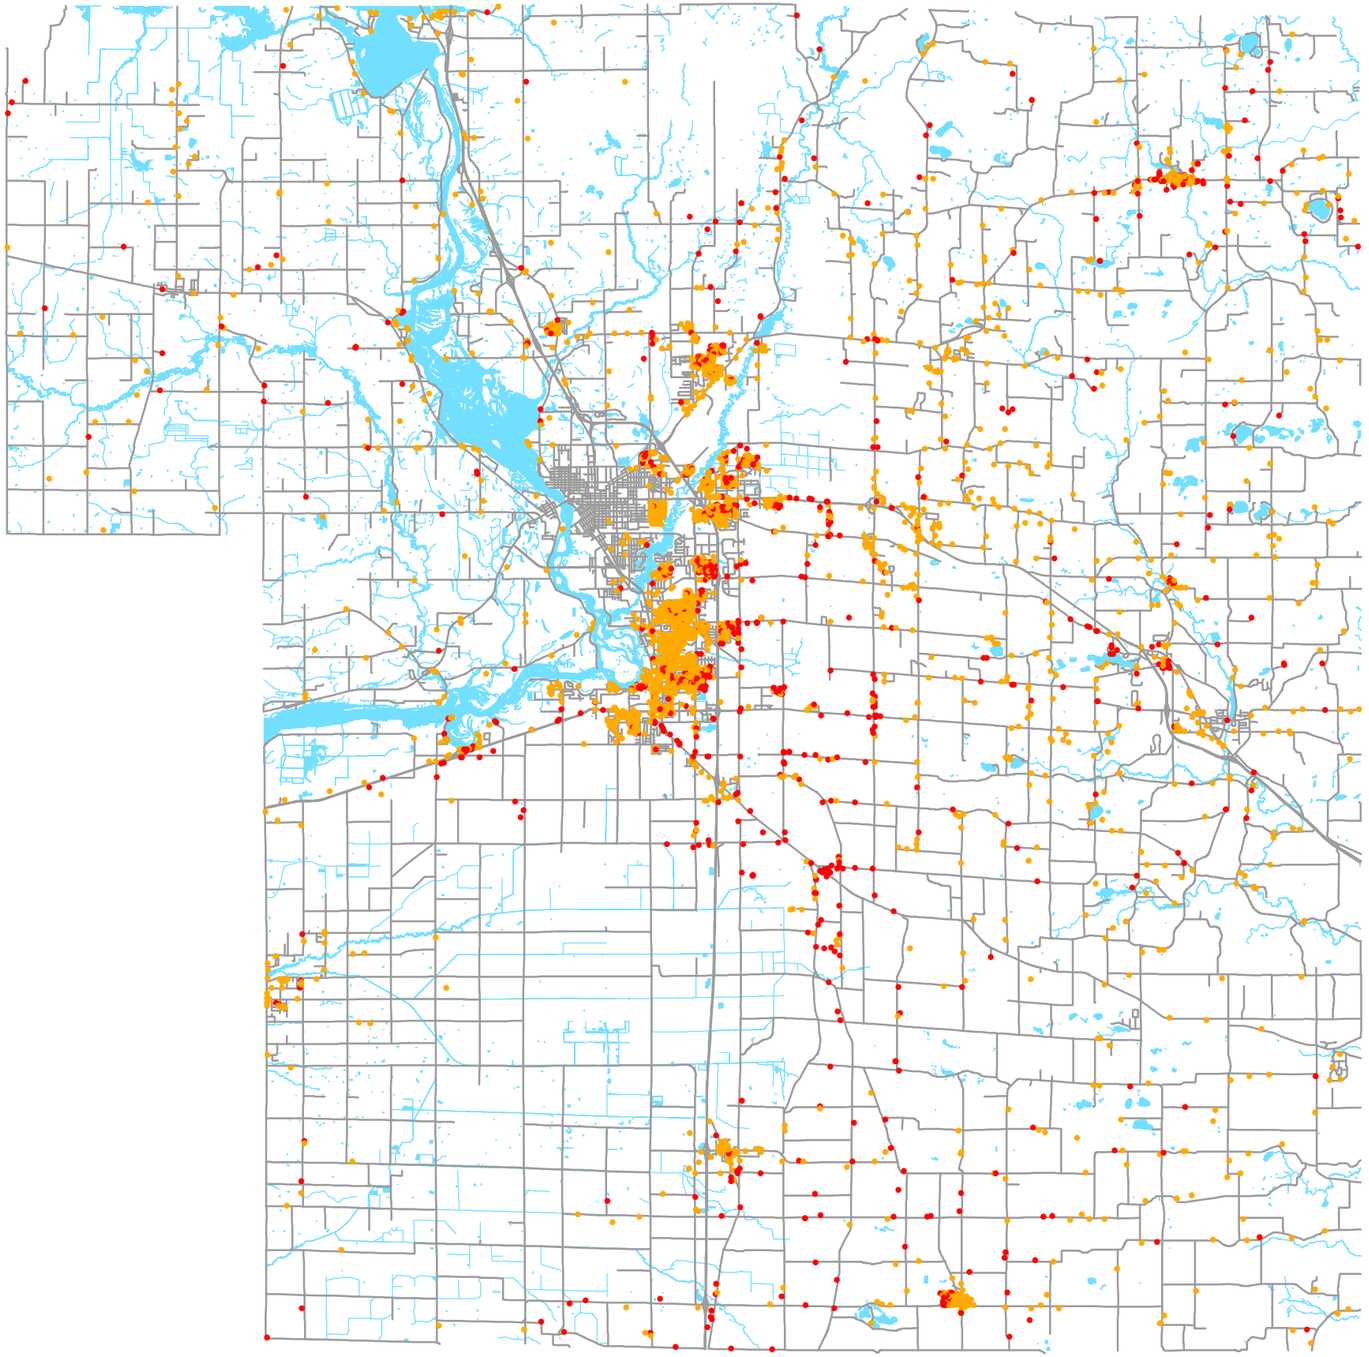

Map 5.8A
Nitrate Nitrogen in Private Wells

Samples taken before 1990

Highest Nitrate Sample Results

- 2 - 10 mg/l
- More than 10 mg/l

Approximately 33% of samples with detectable levels of nitrate exceeded 10 mg/l

This map shows the highest nitrate value reported during the time period stated in the title.

All water samples used to develop this map were submitted voluntarily.
